## 2024 Irrigation Season

We anticipate the irrigation water will turn on beginning the **week of April 8<sup>th</sup> (west of I-15)** and the **week of April 15<sup>th</sup> (east of I-15)**. Each area takes most of the week to fill.

**Property owners west of I-15** should turn their own secondary valve off before April 5<sup>th</sup> to avoid potential flooding problems.

**Property owners east of I-15** should turn their secondary control or main control valve off (1/4 turn clockwise to close) before April 12<sup>th</sup> to avoid potential flooding problems.

## Responsible Water Use

**“No Watering Between 10 A.M. and 6 P.M.”** is the only daily restriction on the water use this year; however, we recommend observing the following water schedules:

- May - June 15<sup>th</sup> – No more than two days per week.
- June 16<sup>th</sup> - Aug. 31<sup>st</sup> – No more than three days per week.
- Sept. 1<sup>st</sup> - Seasons End - No more than two days per week.

## Secondary Water Meters

We are just finishing up our 2<sup>nd</sup> phase of meter installations and will be continuing to install meters year round in hopes to have all the meters installed by the end of 2026. You will receive a notification letter and a door hanger prior to the meter installation at your property.

Installing meters will sometimes be inconvenient, and we ask for your understanding and patience throughout the process.

For any meter-related questions and information, please do one or more of the following:
